DIAZ UPDATES RESULTS OF COMMINGLING OPERATIONS AT ALLEN RANCH, TEXAS

Diaz reports that the Allen Ranch Hancock #1 well located in Colorado County, Texas has been successfully commingled in five Wilcox gas zones.

The Hancock #1 well, in which Diaz has a 20% working interest, is currently producing 4.84 MMcfd at 3200 psi flowing pressure. Prior to the commingling, the Hancock #1 well was producing 3.73 MMcfd at 1650 psi, from the shallowest gas zone.

During completion and testing operations of the lowest five Wilcox zones the Hancock #1 well has produced a cumulative total of 2.3 BCF of gas.

The Allen Ranch Hancock #2 well is currently producing 1.98 MMcfd at 2,450 psi from the shallowest Wilcox gas zone. Plans are underway to commingle the five Wilcox gas zones which have been completed and tested in the Hancock #2 well.

Diaz is an oil and gas exploration and production company based in Calgary, Alberta. Diaz's current focus is on deep gas exploration in Texas and on shallow gas developments in southern Alberta and natural gas and oil exploration in central and southern Alberta.
